WB Food Tec - Busser Industry

About

Wb Food Tec GmbH Busser Industrie has been manufacturing machines and production systems for the food industry for over 50 years.

We offer you complete machine solutions.

From sales advice, technical commissioning and product support.

At WB Food Tec, we are not only manufacturers of machinery for the food industry, but also specialists with over 50 years' experience in the field, who can help you find solutions for your plant.

How can we help you improve your production?

- ▶ **Project planing**
- ▶ **Production lines**
- ▶ **Machine maintenance and Inspection**
- ▶ **Consulting**

Tools, Spare Parts and other Equipment

WB Food Tec also supply the tools and equipment you need for your work facilities, as well as the right spare parts for your machines. **Transport equipment, work surfaces, storage and more.**

Micro Cutter Horizontal Design WB - 180H

- Cutting and emulsifying
- **Production of fluid and pasty products:**
Meat; Skin; Fish; Fruits and Vegetables;
Frozen products.
- Rotator-stator cutting principle
- Cutting Ring: between 3 and 0,2mm

Available with:

7,5KW single 125mm cutting tool
15KW single 145mm cutting tool
30KW single 150mm cutting tool
55KW single 150mm cutting tool
90KW single 180mm cutting tool

Micro Cutter Horizontal Design WB - 180K

- Cutting. Outlet downwards.
- **Production of dry material:**
Fruits and Vegetables; Nuts and Seeds;
Tea and Spices; Bones and Tendons.
- Separately driven screw
- Rotator-stator cutting principle
- Cutting Ring: between 3 and 0,2mm

Available with:

7,5KW single 125mm cutting tool
30KW single 150mm cutting tool
90KW single 180mm cutting tool

Micro Cutter Vertical Design WB - 125V

- Cutting and emulsifying
- **Production of fluid products and dry goods:**
Meat; Fruits and Vegetables; Nuts and Seeds;
Tea and Spices; Sauces and Dressings.
- Rotator stator cutting principle
- Cutting Ring: between 3 and 0,2mm

Available with:

7,5KW single 125mm cutting tool
30KW single 180mm cutting tool

Micro Cutter Vertical Design WB - 125VS

- Cutting and emulsifying
- **Production of fluid products and dry goods:**
Meat; Fruits and Vegetables; Nuts and Seeds;
Tea and Spices; Sauces and Dressings.
- Rotator stator cutting principle
- Cutting Ring: between 3 and 0,2mm

Available with:

7,5KW single 125mm cutting tool

Sauce Machine WB - 205-125KS

- Emulsifier for sauce production with cutting system.
- **Production of Sauces:**
80% Mayonnaise, Ketchup, Mustard.
- Main hopper: 200Lt with scrapper.
- Extra hopper for oil and spices.

Available with:

7,5KW single 125mm cutting tool
15KW single 145mm cutting tool
30KW single 150mm cutting tool
55KW single 150mm cutting tool
90KW single 180mm cutting tool

Bread Machine WB 206-125

- Bread reprocessing machine.
- **Used for:**
Re-process wasted bread into new dough.
- Main hopper: 400Lt
- Mixing arm and scrapper
- Cutting system
- Weighing system
- Automatic operation

Pre Cutting Machine WB - 225

- Pre cutting machine for hard products.
- **For pre-cutting:**
Bones;
Carcasses;
Frozen products;
Chocolate.

Mixing Machine WB-2010

- Mixing machine for dry goods.
- **For mixing:**
All kinds of dry bulk products.
- Hopper: 1000LT / 2000LT
- Speeds: 20rpm / 40rpm
- Two mixing directions
- Safety Lid
- Pneumatic Lid and Output

Cooking Machine ProMix WB - 207

- Cooking Machine with cutting and mixing systems.

For the production of:

Ready to eat meals; Soup; Baby food; Sauces;
Jams and Confectionery; Dairy Products

- Hopper with 60Lt / 200LT
- Cutting System
- Scrapper for Mixing
- Control System

Cooking Machine CookMix WB - 208

- Cooking Machine with mixing system.

For the production of:

Ready to eat meals; Soup; Baby food; Sauces;
Jams and Confectionery; Dairy Products

- Hopper with 300Lt / 600Lt / 1300LT
- Scrapper for Mixing
- Control System

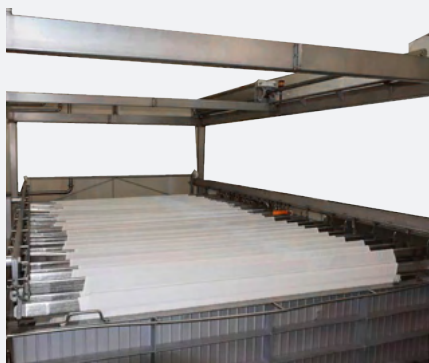

for smaller productions Cooking Kettle

- Cooking Kettle for different types of cooking.
- Capacity 300L
- Electrical heating
- Output DN50
- Mobile
- Made of Stainless Steel

for smaller productions Cheese Maker

- Cooking and mixing small machine
- For the production of:
Cheese and Sauces
- Electrical heating
- Mixing arm

Milk Filter Press

WB - 216

- Milk filter press system
- **For the production of:**
Fresh cheese products
- Filter press
- Filter bag trolleys
- Movable filling heads
- Movable whey collecting trolley
- Different versions of bags

Cabin Washing System

WB - 501-K

- Washing System for:
Smoke trolley; Pallets;
Cabinet trolleys; Containers.
- Water circulation through filter.
- Calibrated nozzle system.
- **Modular phases:**
Main washing
Rinsing

Can Washing System

WB - 521

- Washing System for:
Cans; Tins; Jars; Soft Packages.
- Water heating system
- Water circulation
- **Washing Phases:**
Rinsing
Detergent dosing
Drying

Skewer Washing System

WB - 551

- Washing System for:
Smocking sticks in different materials;
Moulds; Boots; Rubber boots; Aprons.
- Washer w/ positioned drum declaration
- Drive: Spur gear Power: 0,55KW
- Speed: 22U/min
- Voltage: 400V at 500Hz
- **Washing Phases:**
Main wash
Rinse
Final rinse

Crates Washing System

WB - 505

- Washing System for:
Crates; Trays; Boxes; Pallets.
- Water circulation through filter.
- Calibrated nozzle system.

Modular system:

- Pre-washing
- Main washing
- High temperature washing
- Post-purge and between flushing
- Brine washing
- Acid washing
- Vaporization and drying

Bix Box Washing System

JumboLux WB - 501

- Washing System for:
Pallet-boxes; Big boxes; Vats; Trolleys
- Water circulation through filter.
- Calibrated nozzle system.

Modular system:

- Pre-washing
- Main washing
- High temperature washing
- Post-purge and between flushing
- Vaporization and drying

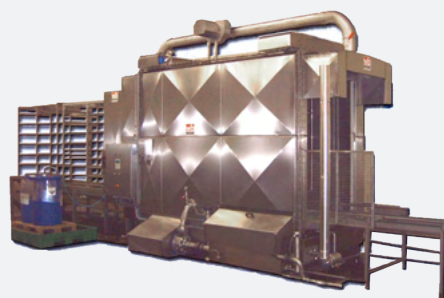

Pallet washing system

WB - 522

- Washing System for:
Plastic pallets
- Water circulation through filter.

Modular phases:

- Main washing
- Drying

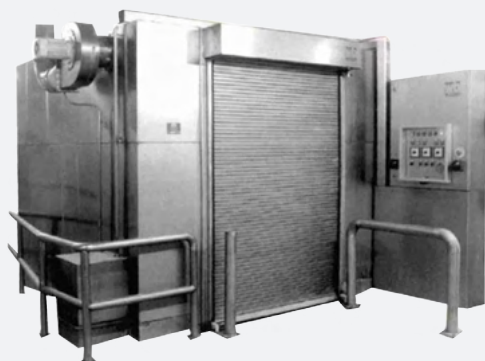

Continuous Washing System

WB - 501-R

- Washing System for:
Smoke trolley; Pallets; Cabinet trolleys;
Cooling Containers; Containers.
- Water circulation through filter.
- Calibrated nozzle system.

Modular phases:

- Main washing
- Rinsing

Cabin Washing System Rota Cleaner WB - 502

- Washing System for:
Smoke trolleys; Pallets; Trolleys; Containers
- Rotating Tray: 1500mm or 2300mm diameter.
- Battery connection for hose cleaning during operation.
- Return pump connection.

Washing Phases:

- Pre-wash
- Main wash with detergent
- Hot wash
- Fresh water wash

Cabin Washing System Combi Lux 506

- Washing System for:
Trolleys; Pallets; Trays; Buckets; Containers;
Refrigerator containers; Machine components.
- Rotating Nozzles.
- Eccentric Motor Driven

Cabin Washing System WB - 506-C

- Washing System for:
Different types of containers.
- Filter System
- Nozzle System

Washing Phases:

- Main wash
- Hot wash
- Final rinse

Cabin Washing System Wabumat WB - 506-S

- Washing System for:
Cabinet trolley; Loading trolley;
Pallet-boxes; containers.
- Filter System
- Nozzle System

Washing Phases:

- Main wash
- Hot wash
- Final rinse

Screw Conveyor WB 206

- Vertical transport.
- **Used for the transport of:**
Food in loose form, Meat;
Powders; Fruit; Vegetables.
- Lowering System
- Motor-driven swivel spout

Dough Band WB - 1526

- Vertical transport for dough productions
- **Used for:**
Convey
Dosing
Strand forming
Intermediate buffering
Optimize system cooperation
- Mobile on two fixed and two swivel castors.
- Manual or mechanical loading options.

Product Conveyor Belt WB - 301

- Internal transport of products.
- **Product conveyor belt types:**
Metal detector belts
Troughed swivel belts
Close retraction hinges

Modular Conveyor Belt WB - 341

- Internal transport of products.
- **Modular conveyor belt for:**
Curved transport
Overcome height differences
Dosing

Roller Conveyor Belt WB - 330

- For internal transport of products or packed goods.
- Horizontal Transport.
- Adjustable to the production's needs.

Spiral Conveyor WB - 340

- **Spiral conveyor for:**
Coolers; Fryers and Ferments
Fermentation and transport of dough
- In- and outlets via module bands.
- Stainless steel Enclosure with paneling on both sides
- PU foam insulation
- Single-tower system
- Product feed from below.
- Product outlet from above.

Vibrating Conveyor WB - 1557+58

- For internal, horizontal transport of different products.
- Uses vibrations for transferring the material.
- Inserts with mesh or perforated plate.
- With cleaning of the sieve bottles on the outlet side.

Tilting Machine WB - 630

- Tilting system for big boxes
- Up to 1200Kg
- Made of stainless steel

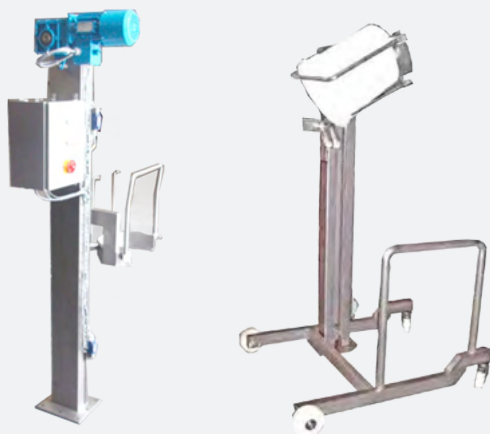

Lifting and Tilting Machine WB - 601

- Lifting and Tilting system for big boxes
- Up to 1500Kg
- Single column unit
- Made of stainless steel

Lifting and Tilting Machine WB - 610

- Lifting and Tilting system for big boxes
- Up to 1000Kg
- Double column unit
- Made of stainless steel

Lifting and tilting machine WB - 605

- Up to 50Kg
- Single column unit
- Made of stainless steel

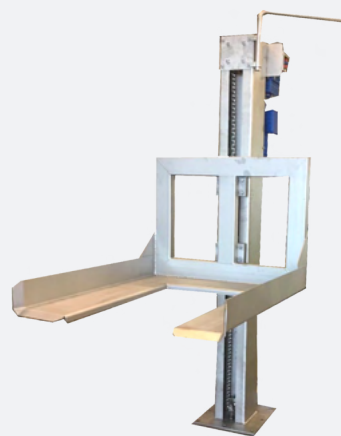

Lifting and Tilting Machine WB - 602

- Tilting system for big boxes
- Up to 300LT
- Made of stainless steel

Pallet Lift
WB - 621P

- Lifting system for pallets.

Pallet Lift
WB - 602P

- Lifting system for pallets.

Shear-lift Table
WB - 622-1

- Lifting system for pallets.
- Retracted height 85mm.
- Loading via hand pallet truck.
- Circumferential safety bar.
- Hydraulic drive.
- Lifting height 800mm.
- Lifting time 23 sec.

Press
WB - 215-20

- Compacting products in boxes.
- Pneumatic drive.
- Two-hand control.

Can Opener Machine WB - 122

- Pneumatic system for can opening
- For different sized cans.
- Pneumatic system.
- Significant reduction of production time.

Available with:

- 3 knives.
- Adjustable height table.

Can Press Machine WB 215 - 05

- Press machine for cans
- For different types of cans.
- Significant reduction of production costs.
- Significant reduction of production time.

Recipe Scale WB - 1019

- Recipe scale for weighing and batching.
- Mounting member for display with cover.
- Adjustable height by 4 levelling feet.
- Carrying capacity 300Kg.
- Motor-driven push button operated.

Modular Scale System WB - 1019-07

- Modular scale for weighing and batching.
- Multifunctional application.
- Variable attachment of the balance head.
