

Frozen block flaker - SM-400

The Niro-Tech frozen block flaker is an industrial quality machine specifically designed to quickly break down frozen blocks of meat, and other produce, into smaller chunks for further processing. Machine have a pneumatic system to push product into the cutting chamber, whilst four blades rapidly flake product into pieces. Machine have integrated safety features to protect operators and easy to use control panel. These include the machine's stop when the top cover is raised and also when the 200lit bin used for collection of meat flakes is removed.

TECHNICAL SPECIFICATION

TYPE: MS-4000

SIZE: 1300 / 1100 / 2515 [mm]

EFFICIENCY: ~ 4000 kg/h

MAX BLOCK SIZE: 250x420x650 [mm]

VOLTAGE: 3x400Vx50Hz

POWER: 9,3 / 11.5 kW

CUTTING SPEED: 80/160 rpm

PRESSURE: 6 Bar

WEIGHT: 1025kg
